SUBJECT:

NEVADA GAMING LICENSE APPLICATIONS - FINGERPRINT REQUIREMENT

Fingerprint submission is required when an individual files an application for a Nevada Gaming License or related approval. The Investigations Division has recently changed their procedures to allow for the submission of prints electronically for fingerprints taken in the state of Nevada.

Please note the fingerprint receipt contains an ORI number and MNU number unique to the Investigations Division of the Nevada Gaming Control and are **not** related to the Gaming Employee Registration Program.

Please ensure you enter these unique numbers when submitting prints electronically so that the proper agency is billed and receives the prints of the applicant.

Do not hesitate to call should you have any questions or concerns.
